How we do it

Our portfolio is built around innovative offerings in application maintenance and development, business process outsourcing, and infrastructure, including desktop services, hosting, storage and networking.

Our services are delivered on the SYNC agile enterprise platform. We use our next-generation global delivery system and the best strategy to ensure high-quality, cost- competitive services are provided from the optimal mix of onshore, near-shore and offshore locations. This enables our clients to respond quickly to changing market dynamics and increase their competitiveness.

Our policy on quality

At SYNC, we believe in **Quality of Service**. From inception, quality is our key competitive advantage. Accordingly our policies are to:

-  Employ a best practice value-based work culture
-  Listen to our customers to understand their ICT needs and expectations.
-  Continuously assimilate and disseminate technology relevant to our customer business.
-  Develop and sustain a mutually satisfactory relationship with our business partners.
-  Undertake continuous employee training.

Did you know SYNC...

-  Can cut your ICT costs by more than half and at the same time improve your business efficiency infrastructure?
